

Resources and Development (Set A) — MCQ Worksheet

Social Science — Geography • Chapter 1 • 25 Questions, 1 mark each — Total: 25 marks

Instructions: Choose the correct option (A / B / C / D) for each question. Each question carries 1 mark. There is no negative marking. Suggested time: 30 minutes.

Q1. Resources that take millions of years to form are called:

- | | |
|---------------|-------------------|
| (A) Renewable | (B) Non-renewable |
| (C) Biotic | (D) Abiotic |

Q2. An example of biotic resource is:

- | | |
|--------------|-------------|
| (A) Iron ore | (B) Forests |
| (C) Coal | (D) Water |

Q3. Which of the following is an abiotic resource?

- | | |
|-----------|-------------|
| (A) Fish | (B) Forests |
| (C) Rocks | (D) Cattle |

Q4. Resources owned by individuals are called:

- | | |
|---------------|-------------------|
| (A) Community | (B) Individual |
| (C) National | (D) International |

Q5. Oceans beyond the territorial limit of 200 nautical miles are:

- | | |
|-------------------------|-----------------------------|
| (A) National resources | (B) International resources |
| (C) Community resources | (D) Private resources |

Q6. Resources that exist but are not currently used due to lack of technology are called:

- | | |
|---------------|---------------|
| (A) Stock | (B) Reserves |
| (C) Potential | (D) Developed |

Q7. The Rio Earth Summit took place in:

- | | |
|----------|----------|
| (A) 1972 | (B) 1992 |
| (C) 2002 | (D) 2012 |

Q8. Agenda 21 is a programme for:

- | | |
|-----------------------------|------------------------|
| (A) Sustainable development | (B) Industrial growth |
| (C) Trade liberalisation | (D) Population control |

Q9. India's first Five Year Plan started in:

- | | |
|----------|----------|
| (A) 1947 | (B) 1950 |
| (C) 1951 | (D) 1955 |

Q10. The most fertile soil in India is:

- | | |
|-------------------|-------------------|
| (A) Black soil | (B) Red soil |
| (C) Alluvial soil | (D) Laterite soil |

Q11. Older alluvial soil is called:

- | | |
|------------|--------------|
| (A) Khadar | (B) Bangar |
| (C) Regur | (D) Laterite |

Q12. Black soil is also known as:

- | | |
|------------|------------|
| (A) Khadar | (B) Bangar |
| (C) Regur | (D) Bhabar |

Q13. Black soil is best suited for the cultivation of:

- | | |
|----------|------------|
| (A) Rice | (B) Cotton |
| (C) Tea | (D) Jute |

Q14. Laterite soil is found in regions of:

- | | |
|-------------------------|------------------|
| (A) Heavy rainfall | (B) Desert areas |
| (C) Cold mountain areas | (D) Plains only |

Q15. Arid soil is found mainly in:

- (A) Kerala
- (C) Assam

- (B) Rajasthan
- (D) West Bengal

Q16. Red and yellow colour of red soil is due to:

- (A) Iron oxide
- (C) Silica

- (B) Calcium
- (D) Lime

Q17. Soil erosion can be controlled by:

- (A) Deforestation
- (C) Contour ploughing

- (B) Overgrazing
- (D) Mining

Q18. Terrace cultivation is practised on:

- (A) Plains
- (C) Deserts

- (B) Hills/slopes
- (D) Coastal areas

Q19. Strip cropping helps in:

- (A) Irrigation
- (C) Increasing pollution

- (B) Reducing wind erosion
- (D) Killing pests

Q20. Shelter belts are rows of:

- (A) Houses
- (C) Stones

- (B) Trees that reduce wind erosion
- (D) Dams

Q21. The National Forest Policy aims to keep forest cover of India at least:

- (A) 10%
- (C) 33%

- (B) 22%
- (D) 50%

Q22. Land used for grazing animals is called:

- (A) Cropped land
- (C) Fallow land

- (B) Pasture land
- (D) Waste land

Q23. Which of these is NOT a renewable resource?

- (A) Solar energy
- (C) Coal

- (B) Wind energy
- (D) Water

Q24. A resource that is technologically accessible, economically viable and culturally acceptable is:

- (A) A stock
- (C) A useful resource

- (B) A potential resource
- (D) A reserved resource

Q25. Sustainable development means:

- (A) Using resources without limit
- (C) Banning all use

- (B) Meeting present needs without compromising future generations
- (D) Saving only minerals
