

# Water Resources — MCQ Worksheet

**Social Science — Geography • Chapter 3 • 25 Questions, 1 mark each — Total: 25 marks**

**Instructions:** Choose the correct option (A / B / C / D) for each question. Each question carries 1 mark. There is no negative marking. Suggested time: 30 minutes.

**Q1.** Approximately what % of Earth's water is fresh water?

- (A) 50%
- (B) 25%
- (C) 2.5%
- (D) 75%

**Q2.** Water scarcity is mainly caused by:

- (A) Lack of rainfall only
- (B) Over-exploitation, pollution, unequal access
- (C) Tropical climate only
- (D) Floods

**Q3.** Which of these is the dam built across the Sutlej?

- (A) Hirakud
- (B) Bhakra-Nangal
- (C) Sardar Sarovar
- (D) Tehri

**Q4.** Hirakud Dam is built on the river:

- (A) Krishna
- (B) Mahanadi
- (C) Sutlej
- (D) Narmada

**Q5.** Damodar Valley Corporation manages the river:

- (A) Damodar
- (B) Tapti
- (C) Krishna
- (D) Cauvery

**Q6.** Sardar Sarovar Project is on the river:

- (A) Mahanadi
- (B) Narmada
- (C) Cauvery
- (D) Sutlej

**Q7.** Narmada Bachao Andolan was a movement against:

- (A) Dams
- (B) Forest cutting
- (C) Mining
- (D) Highways

**Q8.** Pandit Nehru called dams the:

- (A) Lifelines
- (B) Temples of modern India
- (C) Water tanks
- (D) Power stations

**Q9.** Multi-purpose river projects serve:

- (A) Only irrigation
- (B) Only electricity
- (C) Multiple purposes including irrigation, electricity, flood control
- (D) Only navigation

**Q10.** Tankas in Rajasthan are used for:

- (A) Storing rainwater for drinking
- (B) Storing milk
- (C) Cooking
- (D) Cooling

**Q11.** Bamboo drip irrigation is traditional to:

- (A) Rajasthan
- (B) Punjab
- (C) Meghalaya
- (D) Tamil Nadu

**Q12.** Khadins and johads are systems of:

- (A) Irrigation in Rajasthan
- (B) Drainage in West Bengal
- (C) Power generation
- (D) Dam construction

**Q13.** The kuls / guls of the Western Himalayas carry water from:

- (A) Wells
- (B) Glacier streams
- (C) Tube wells
- (D) Reservoirs

**Q14.** Tamil Nadu was the first state to make rainwater harvesting compulsory in:

- (A) 1995
- (B) 2003
- (C) 2010
- (D) 2014

**Q15.** Roof-top rainwater harvesting is mainly used to:

- (A) Wash roofs
- (B) Recharge groundwater / store water
- (C) Cool buildings
- (D) Generate electricity

**Q16.** A common drawback of large dams is:

- (A) Displacement of people
- (B) No effect on environment
- (C) No silt issues
- (D) Reduction in water

**Q17.** Inundation channels for irrigation are traditional in:

- (A) Bengal floodplains
- (B) Deserts
- (C) Hill stations
- (D) Coastal Kerala

**Q18.** Watershed management is best described as:

- (A) Building large dams only
- (B) Integrated managing of surface and ground water in a small basin
- (C) Selling water
- (D) Ignoring soil

**Q19.** Sediment trapped in dams reduces:

- (A) Storage capacity downstream
- (B) Pollution
- (C) Power generation always
- (D) Population

**Q20.** Migratory fish suffer when dams are built because:

- (A) The water gets cold
- (B) They cannot migrate upstream
- (C) They do not need water
- (D) They do not exist

**Q21.** Water that is shared between states is governed by:

- (A) Local councils only
- (B) Inter-state water tribunals/agreements
- (C) Each state alone
- (D) Central police

**Q22.** The model village of Gendathur is famous for:

- (A) Solar power
- (B) Roof-top rainwater harvesting
- (C) Wind power
- (D) Fishing

**Q23.** Soil salinisation in irrigation zones is caused by:

- (A) Lack of water
- (B) Over-irrigation
- (C) Cold weather
- (D) Forests

**Q24.** Krishna-Godavari water dispute is between which states?

- (A) Punjab and Haryana
- (B) Maharashtra and Gujarat
- (C) States of southern India sharing those rivers
- (D) Bihar and Bengal

**Q25.** Which of these is NOT a benefit of multi-purpose river projects?

- (A) Irrigation
- (B) Hydroelectricity
- (C) Flood control
- (D) Increased soil erosion
