- Q17.** A resource is anything available in our environment that satisfies our needs and is technologically accessible, economically feasible and culturally acceptable.
- Q18.** Liberal Nationalism stood for individual freedom, equality before law, constitutional government, and freedom of markets — a movement that combined civil liberties with national unity.
- Q19.** Prudential reasons stress that power-sharing brings out better outcomes — it reduces social conflict and ensures political stability.
- Q20.** (i) Among different organs of government — legislature, executive and judiciary; (ii) between governments at different levels — central, state and local.

SECTION B — Answer Key (2 marks each)

- Q21.** The Frankfurt Parliament was an all-German national assembly that met at St Paul's Church in 1848 to draft a constitution for a unified German nation. It failed because it lacked support from the working classes and the artisans, and was eventually disbanded by the army when the king of Prussia refused the crown offered to him. (2)
- Q22.** *Alluvial* soil is formed by deposition of sediments carried by rivers; rich in potash and lime; covers the northern plains. *Black* soil (regur) is formed from weathered Deccan lava; rich in lime, calcium and potash; ideal for cotton. (2)
- Q23.** (i) A long civil war between the Sinhala-dominated government and Tamil minority groups (esp. LTTE) leading to deaths and displacement. (ii) Mistrust between communities, economic damage and weakening of democratic institutions. (2)
- Q24.** Garibaldi's Red Shirts marched into South Italy and the Kingdom of the Two Sicilies, defeated the Spanish rulers, and handed over the territories to King Victor Emmanuel II. With this, large parts of southern Italy joined the unified Kingdom of Italy in 1861. (2)
- Q25.** Individual, community-owned, national and international resources. (2)

SECTION C — Answer Key (3 marks each)

Q26. (i) Introduction of the **Civil Code of 1804** (Napoleonic Code) — equality before law, abolition of all privileges based on birth, right to property. (ii) Abolition of the feudal system, freeing peasants from manorial dues and serfdom. (iii) Standardisation of weights and measures, removal of guild restrictions, removal of internal customs, common currency, and improved transport — promoting commerce. (3)

Q27. Reasons: (i) supports natural vegetation, wildlife, agriculture and human settlements; (ii) provides land for industry and infrastructure; (iii) underlies all economic activity. *Conservation method:* afforestation/agro-forestry, contour ploughing, regulating mining, control of grazing, planting shelter belts. (3)

Q28. Belgium accommodated regional and cultural differences through power-sharing — equal Dutch and French ministers in central government, separate community governments, and special arrangement for Brussels. Sri Lanka, by contrast, adopted majoritarian measures (Sinhala-only Act 1956, preference for Sinhala in jobs, Buddhism made state religion), which alienated the Tamil minority and led to civil war. Belgium's accommodation has been more successful as it has preserved unity and peace. (3)

Q29. Sustainable development implies meeting present needs without compromising the ability of future generations to meet theirs. Examples: (i) using solar/wind energy to reduce dependence on fossil fuels; (ii) rainwater harvesting to ensure long-term water availability; (iii) afforestation and recycling to maintain ecological balance. (3)

SECTION D — Answer Key (5 marks each)

Q30. Culture played a vital role in creating a sense of nationhood. (i) **Romanticism** emphasised emotion, intuition and folk culture rather than reason. (ii) **Music and folk songs** (collected by Johann Gottfried Herder) preserved the spirit of the common people (das volk). (iii) **Art** like Eugène Delacroix's 'Liberty Leading the People' inspired patriotism. (iv) **Folk tales** collected by the Grimm Brothers carried the German spirit. (v) **Language** revival, e.g. of Polish, became part of resistance to foreign rule. Together these elements created a shared cultural identity. (5)

Q31. Resource planning is the judicious use of resources. The three stages:

(i) **Identification and inventory** of resources across regions of the country — surveying, mapping, qualitative and quantitative estimation.

(ii) **Evolving a planning structure** with appropriate technology, skill and institutional setup.

(iii) **Matching** resource development plans with overall **national development plans**.

Need: India has wide regional variations — Rajasthan has solar/wind energy but lacks water; Jharkhand is rich in minerals but lacks infrastructure. Planning ensures equitable, sustainable use. (5)

Q32. Forms of power-sharing: (i) **Horizontal** — among legislature, executive and judiciary (checks and balances). (ii) **Vertical** — among different levels of government: central, state, local (federalism). (iii) **Among social groups** — community government in Belgium, reservations for weaker sections in India. (iv) **Among political parties, pressure groups and movements** — coalitions, alliances. (v) **Direct power-sharing in everyday life** — through associations, parties, and pressure groups influencing policy. (5)

Q33. Germany was a collection of many states held together by a confederation. After 1848, when middle-class liberal attempts at unification failed, Prussia took the lead. Otto von Bismarck, the Prussian Chancellor, used a policy of '*blood and iron*' — a series of three wars over seven years (with Denmark 1864, Austria 1866 and France 1870–71) — to defeat opponents and bring the German states together. In January 1871, Prussian king William I was proclaimed German Emperor at Versailles. The new state then focused on currency, banking, legal and judicial systems modernisation, completing political and economic unification. (5)

SECTION E — Answer Key (4 marks each)

Q34. (i) The dream of a world made up of democratic and social Republics, with peoples of Europe and America united in liberty. (1) (ii) Any two of: shattered crowns, sceptres, royal thrones, fallen monarchs, etc. (1) (iii) The print conveyed the message that the age of monarchy was ending and the future belonged to free, sovereign nations bound by ideals of liberty, equality and brotherhood. (2)

Q35. (i) Judicious use means using resources in such a way that they are conserved and remain available for future generations. (1) (ii) Any two of: depletion of resources, ecological imbalance, accumulation of wealth in fewer hands, climate change. (2) (iii) Because resources are not evenly distributed, are limited, and need to be

developed and used efficiently for balanced regional development. (1)

Q36. (i) Any one of: equal Dutch and French ministers in central government; separate Brussels government with equal representation; community government for cultural/educational matters. (1) (ii) The community government, elected by people of one language community (Dutch, French or German), looks after cultural, educational and language-related issues, regardless of where they live — reducing communal tensions. (1) (iii) Belgium accommodated diversity through power-sharing and won unity and peace. Sri Lanka adopted a majoritarian approach (Sinhala-only Act 1956, preference for Sinhalese), alienating the Tamil minority and leading to civil war. (2)
